KUMQUATS *SO

FP 600366 | SUPC 1007814 10LB

Kumquat fruits are entirely edible. The peel is the true citrus sweetness in both aroma and flavor. The flesh offers a bold and juicy tart contrast, making a sweet tart treat.

They are versatile ingredient in both sweet and savory applications. Candied the fruits and use to top pound cakes or ice cream. Or simply enjoy them raw or slice into salads. Excellent to be muddled into a cocktail or making marmalade.

Kumquats are available from November – March

Great source of vitamin C and fiber. Low fat and sodium.
